PROFESSIONAL SUMMARY

B.Tech Computer Science graduate with internships in Python, AWS Cloud, and Data Science & Machine Learning. Proven ability to build and deploy end-to-end AI and cloud applications using real-time APIs, cloud infrastructure, and LLMs. Seeking an entry-level Software, AI, or Data role where I can contribute immediately and grow technically.

TECHNICAL SKILLS

Programming Languages: Python, C, C++

GenAI & LLMs: LangChain, Prompt Engineering, Few-Shot Learning, Groq LLM, Text-to-SQL Systems

Machine Learning / Data Science: Scikit-learn, Pandas, NumPy, Matplotlib, Streamlit

Web Development: HTML5, CSS3

Cloud & DevOps: AWS (EC2, S3, Route 53, SES), Git, GitHub

Database: MySQL

Tools & Frameworks: SQLAlchemy, Tkinter, Power BI

Core Concepts: Data Structures & Algorithms, OOPs, REST APIs

INTERNSHIP EXPERIENCE

Data Science Intern | Ordeta Pvt. Ltd. | Jaipur

- Built ML models on real-time IPL cricket match data for score and win prediction.
- Deployed interactive prediction app using Streamlit and integrated live match APIs.
- Performed data cleaning, feature engineering, and model evaluation using Scikit-learn and Pandas.

Cloud Computing Intern | Celebal Technologies Pvt. Ltd. | Jaipur

- Hands-on experience with AWS services: EC2, S3, Route 53, and SES.
- Designed and deployed a cloud-based project on AWS infrastructure optimized for scalability.
- Gained practical knowledge of cloud architecture principles and deployment pipelines.

Python Developer Intern | Zeetron Networks Pvt. Ltd. | Jaipur

- Developed desktop GUI applications using Python and Tkinter with MySQL database integration.
- Completed training covering Python programming, UI design, and CRUD operations.

PROJECTS

IPL Score & Win Prediction App | Python | Scikit-learn | Pandas | Streamlit | REST APIs

- Developed a live data science app predicting IPL first-inning scores and match win probabilities.
- Integrated real-time score updates and upcoming match details via cricket APIs.
- Deployed on Streamlit Cloud — accessible via browser, no local setup required.

Online Ticket Booking Website | HTML | CSS | MySQL | AWS

- Full-stack web application with user registration, ticket booking, booking history, and email confirmation.
- Deployed on AWS EC2 with MySQL backend and implemented session management.

QueryKart AI | Python | Streamlit | LangChain | Groq LLM | MySQL | SQLAlchemy

- Built an AI-powered retail database assistant that converts natural language questions into SQL queries.

- Integrated Groq Llama 3.3 70B with LangChain for AI-generated database analytics.
- Deployed using Streamlit Cloud and Railway MySQL with secure cloud database integration.

EDUCATION

B.Tech in Computer Science (Advanced Computing) Completed: 2026
Poornima Institute of Engineering & Technology, Jaipur • CGPA: 7.8 / 10.0

Class XII — CBSE 2021 – 2022
Swami Vivekanand Govt. Model School, Pindwara, Sirohi • 82%

Class X — CBSE 2019 – 2020
Swami Vivekanand Govt. Model School, Pindwara, Sirohi • 83%
